

Appendix A

Master Building Inventory

CDF Building Inventory

This master inventory of the California Department of Forestry and Fire Protection (CDF) building collection was compiled from information contained in the following sources:

- 1) CDF Technical Services Section (TSS) computerized building inventory, on file in Sacramento.
- 2) California Office of State Architect (OSA) CDF building inventory, on file in Sacramento.
- 3) CDF S-5 inventory forms and photograph collection, on file in Sacramento.

The TSS is the most complete with updates to January 1993. The OSA was compiled in the late 1980s and has a number of errors and omissions. The S-5 inventory system was used in the 1950s and 1960s with discontinuance of updating by the mid-1970s.

In the following pages, the site name and building name (or use) will appear in the first two columns on the left. The building name will be based on the TSS designation (or OSA if no TSS entry, or S-5). The next three columns contain the gross square footage for the same building as reported in the TSS, OSA and/or S-5 (respectively). The last column contains the year of construction as reported in the OSA and S-5 (OSA/S-5). The TSS does not have construction date information. When "nl" is entered in the column this indicates that the building was "not listed" in the source document. When "nr" is entered in the column this indicates that the building is listed in the source document but the specific information (either square footage or construction date) was "not recorded."

Conflicts in reported square footage and construction dates between the three source documents often reflect the passage of time wherein a given building has been remodeled or replaced. Other conflicts arise from inaccurate reporting. Whenever a building listed in the OSA cannot be clearly cross matched to the TSS it is entered on a separate line. Most of the S-5 buildings that don't appear in the TSS and OSA have been demolished and, therefore, have not been entered in this list. All TSS and OSA building entries are included in the following pages.

The intent of this inventory is to assist in gaining a better picture of what currently (1994) exists in the CDF building collection. The information in this report has not been independently verified in the field. Field work associated with the recently completed CDF historic building inventory and significance evaluation indicates that neither the TSS nor OSA lists are complete. It is hoped that this inventory will serve as a catalyst in updating and correcting the TSS computerized inventory.

There are 58 counties in California. The State Board of Forestry has designated "State Responsibility Area" in all but two of the counties. The CDF does not, however, provide direct wildland fire protection for the remaining 56 counties in the State. The CDF does have a direct fire protection role in 45 counties. The following list contains notes for all 58 counties.

Mark V. Thornton 1994

California Department of Forestry and Fire Protection

Building Inventory

Station/Building	TSS Sq. Ft.	OSA Sq. Ft.	S-5 Sq. Ft.	Date
-------------------------	--------------------	--------------------	--------------------	-------------

Alameda County

Sunol Forest Fire Station

Barracks & Messhall	2,300	2,308	2,844	59/60
Storage Building	1,008	nl	1,008 [2-Bay]	nl/60
Gas & Oil Building	66	nl	66	nl/60
Office/Apparatus Building	nl	4,240	nl	87/nl

S-5 is dated March 1967.

The station is administered by the Santa Clara County Ranger Unit.

Lookout Residence	570	570	570	34/34
Storage Building	400	nl	400 [Rpt Vault]	nl/35
State Residence	1,312	1,312	1,361	40/34

S-5 for the Administrative site is dated December 1958. This covers the State Residence, the Residence Garage, Residence Cabin, and the Well Pump House. The Cabin (Cottage) was also used as a Ranger's Office.

S-5 for the Fire Lookout Station is dated December 1958 with updates to 1969. This covers the balance of the buildings in the above list. The facilities are located on the summit of the mountain a few hundred feet to the south of the Administrative Site. The Tank House served as the original Mount Zion Forest Fire Station office and was "reconstructed in 1953." The Storage Building was originally a 2 car garage which was "reconstructed" in 1952-53 into a repeater vault. The building houses radio equipment today.

Mount Zion Forest Fire Station

Apparatus/Office/Barracks	ne	5,200		1981
Storage Building	140	nl		

Station post dates S-5 era. The Station is located along State Highway 88 about three miles north of the Fire Lookout Station.

Pine Grove Youth Conservation Camp

Barracks	9,216	9,176 [Ward Barracks]	6,630	69/47
Recreation/Classroom	5,388	4,128	1,960	69/47
Messhall/Kitchen	3,250	3,255	2,542	69/47
Office	2,864	2,848	1,818	69/47

California Department of Forestry and Fire Protection

Building Inventory

Station/Building	TSS Sq. Ft.	OSA Sq. Ft.	S-5 Sq. Ft.	Date
-------------------------	--------------------	--------------------	--------------------	-------------

Amador County

Pine Grove Youth Conservation Camp (continued)

Storage Building	4,400	4,600 [CYA Ware]	2,400	69/47
Equipment Building	4,244	4,224	4,020 [Carp]	69/47
Gas & Oil House	240	346	120	70/47
Warehouse/Shop	3,200	3,200 [CDF Ware]	nl	69/nl
CDF Staff Barracks	1,800	1,976	1,824	48/55
Paint House	160	nl	nl	
CYA Staff Barracks	2,465	2,511	1,880	69/47
CYA Residence	1,392	nl	1,307	nl/48
CYA Residence Garage	360	nl	360	nl/48
CDF Residence	1,348	nl	1,307	nl/48
CDF Residence Garage	596	nl	400	nl/48
Well Pump House	295	nl	238	nl/65
Storage Building	346	396	396 [Guest H]	68/47
Generator House	167	nl	70	nl/47
Excess Property Building	2,624	2,324 [Surplus]	nl	80/nl

S-5 is dated November 1958 with updates to 1972.

S-5 reports that the Associate Ranger's Residence was a metal military surplus building torn down in 1957 and the material salvaged for the classroom at Sutter Hill. The Sutter Hill Training Center has since been removed.

Pine Lodge Forest Fire Station

Barracks/Messhall	2,030	2,058	2,030	57/57
Garage/Warehouse	945	1,066	910 [3-Bay]	49/43
Gas & Oil House	66	64	60	20/43
Office/Apparatus Building	nl	nl	nl	

S-5 is dated December 1958 with updates to 1967.

The OSA date for the Gas & Oil House is wrong. This building was remodeled and enlarged in 1993. A 2,000 square foot Office/Apparatus building was erected in 1993.

Barracks/Messhall	2,535	3,413	3,335	40/41

S-5 is dated December 1958 with updates to 1971.

This site was the Ranger Unit Headquarters for Amador County before the Amador-El Dorado consolidation. Besides the fire station, buildings at this site provide administrative space for Ranger Unit activities. The site was also known as the Sutter Hill Training Facility, the classrooms have been removed.

Building Inventory

Station/Building	TSS Sq. Ft.	OSA Sq. Ft.	S-5 Sq. Ft.	Date
-------------------------	--------------------	--------------------	--------------------	-------------

Butte County

Oroville Forest Fire Station & Butte Ranger Unit Headquarters (continued)

Main Auto Shop	1,800	2,398 [North Shop]	1,590	60/60
Office	3,600	2,675	3,424	65/65

S-5 is dated March 1954 with updates to 1970.

Paradise Forest Fire Station

Apparatus/Office	1,848	1,821	1,760	51/51
Storage/Recreation Room	400	400	400 [2-Bay]	34/34
Barracks/Messhall	1,820	1,885	1,885	34/34

S-5 is dated January 1953 with updates to 1968.

The Combination Barracks was remodeled and enlarged in 1951. The original 2-Bay garage was converted to a warehouse in 1962. Building was subsequently divided into a tool room and recreation room.

Platt Mountain Fire Lookout Station

Lookout Tower	50	56	nl	62/nl
Residence	625	4,932	292	62/56

S-5 is undated, updates to 1968.

The original 45 foot tall Lone Pine lookout tower and associated residence were constructed by the Civilian Conservation Corps for the Forest Service in 1934-35. Buildings were purchased by CDF and moved northward to present location in 1955-56. Tower height was increased to 90 feet.

Robinson Mills Forest Fire Station

Barracks/Messhall	1,932	1,365	ne	69/69
Apparatus/Office	1,262	1,165	ne	69/69
Gas & Oil House	96	nl	ne	nl/69

Building information from Sacramento's S-5 album is not recorded on an S-5 form.

Sawmill Peak Fire Lookout Station

Lookout Tower	196	196	196	58/29
Storage Building	nl	nl	288	nl/69

S-5 is dated October 1953 with updates to 1969.

CDF replaced the lookout cab in 1969.

California Department of Forestry and Fire Protection

	Building Inventory			
Station/Building	TSS Sq. Ft.	OSA Sq. Ft.	S-5 Sq. Ft.	Date

Butte County

Stirling City Forest Fire Station

Office	786	506	741	38/37

Gas & Oil House	100	120	120	73/73
Storage Building	nl	nl	64	nl/38

S-5 is dated April 1954 with updates to 1973.

The Barracks was moved to the site and rebuilt by the CCCs for the Forest Service in 1938. The building was enlarged by CDF in 1949.

Sunset Hill Fire Lookout Station

Lookout Tower	400	164		1976
Rest room	550	168 [Storage Bldg/Water Tank]		1976

S-5 not located for this site. CDF took over this station at the end of the S-5 era. The lookout tower was erected for the Forest Service in 1934. In 1972 CDF replaced the cab and constructed a utility building for use as a radio vault and rest room (OSA dates are wrong).

California Department of Forestry and Fire Protection

	Building Inventory			
Station/Building	TSS Sq. Ft.	OSA Sq. Ft.	S-5 Sq. Ft.	Date

Calaveras County

Altaville Forest Fire Station

Kitchen/Messhall	720	720	720	51/52
Barracks/Recreation Room	1,540	1,540	1,529	51/52
Gas & Oil House	150	64	ne	ne/67
Apparatus/Office	1,485	1,920	1,800	51/51
Dozer Shed/Shop	2,760	1,440	1,920	51/56

S-5 is dated April 1959 with updates to 1968.

S-5 reports that at the time of acquisition an old oil house and an old school house were on the property, age unknown. The oil house is gone and the school house was moved years later to an adjoining parcel. It does not belong to CDF. The gas and oil house enclosed a 1951 vintage gas and diesel pump island.

Arnold Forest Fire Station

Apparatus/Office	5,934	nl	2,944	nl/65
Barracks/Messhall	2,476	nl	2,476	nl/65
Gas & Oil House	160	nl	160	nl/69
Garage	1,920	nl	nl	

S-5 is dated March 1967 with updates to 1969.

Bailey Ridge Forest Fire Station

Barracks/Messhall	1,120	1,130	1,120	50/61
Garage/Shop	672	nl	672	nl/61
Classroom	256	224	224 [Util Bldg]	50/57
Well Pump House	96	nl	60	nl/64
Storage House	224	nl	195	nl/57
Gas & Oil House	60	nl	60	nl/65

S-5 is dated March 1959 with updates to 1969.

S-5 reports that "temporary enclosed tent platforms" were being used for a tool shed, a "power and light building," and for the station office. The first two buildings came from a 1937 vintage well house relocated from San Andreas Headquarters and a 1950 vintage well house relocated from West Point Forest Fire Station. The office consisted of "some old and new materials." This station is closed, being replaced by the Hermit Springs Forest Fire Station (constructed 1993).

California Department of Forestry and Fire Protection

Station/Building	Building Inventory		S-5 Sq. Ft.	Date

S-5 is dated April 1959 with updates to 1972. [Auto Shop, Two sheds, Oil House, Radio Shop nl.]

The Administration Building was originally 1,221 square feet. It was enlarged and remodeled in 1967 to 2,142 square feet. It was enlarged to 2,772 square feet in 1971-72. It has been enlarged and remodeled since the S-5 report keeping. The Emergency Command Center is located in a converted Warehouse. The Ranger's Residence was converted for office use with minor alterations in the 1970s. This house and the Walk-In Ice Box have poured concrete basements. A 595 square foot oil house erected 1940 is located behind the 5-Bay Garage.

S-5 is dated November 1958 with updates to 1967.

S-5 reports that the original Combination Barracks was 2,216 square feet. The building was constructed in 1936 and remodeled in 1958. The building was converted to a "10-man barracks" in 1966 and a separate messhall was constructed. A 120 square foot cook's quarters was erected on the site in 1965. The Tool Room is attached to the Garage. The Garage was originally 1,088 square feet. It was enlarged to present dimensions in 1962.

Office	1,200	1,200 [Prevention]	925 [Res]	46/39

S-5 is dated November 1958 with updates to 1972.

Originally the office was 1,972 square feet. Building was enlarged by 180 square foot addition in 1963. Office enlarged again in 1968 to a total size of 2,109 square feet. Building has been remodeled and enlarged since the S-5 record keeping era. The small office was originally a "Dispatch Residence" which was constructed in 1939 and remodeled in 1947. The Messhall was remodeled in 1946. The 1,800 square foot Apparatus Building was known as the "Upper Truck Shed" and is listed as a "5-Bay Garage" on the S-5 form. The first barracks building was erected in 1940, being replaced by the existing barracks. An 80 foot tall timber tower was erected at this site circa 1933. The tower was replaced with the 100 foot tall steel tower in 1948-49. This is the tallest fire lookout in the CDF system.

A separate Ranger Residence site is located to the south of the Headquarters compound. CDF no longer owns this site.

Residence Garage	nl	506	506	64/64
Connex (4 each)	nl	150	nl	70/nl

S-5 is dated October 1957.

This site was initially known as the Humphreys Fire Control Station.

S-5 "p46" = "prior to 1946." Ranger Unit records show this property was first leased from the Blasingame family in 1934. The lease was renewed in 1940. The OSA construction dates for the Barracks and Garage are close to the actual date. The site saw use as a California Youth Authority "Spike Camp" from 1949 to 1967.

Warehouse	1,954	800	800	54/54
Gas & Oil House	nl	120	204	54/64

Two S-5 forms, one is dated November 1957 and the other is dated March 1971.

The site was formerly known as the Fort Millerton Forest Fire Station. The 800 square foot warehouse is believed to have been a military surplus building. The building was removed sometime before 1965. The TSS 1,954 square foot Warehouse building is a new apparatus building erected in 1992. The old Apparatus Building is being used for storage and as an exercise room.

This was the site of the Millerton Brick Works a CDF/CYA pumice brick manufacturing site (1946-1959).

Modoc County

Happy Camp Forest Fire Station (continued)

No S-5 for this site.

This was originally a Modoc National Forest Guard Station, known as the "Happy Camp Guard Station." The original Garage, Barracks, and Messhall were erected by the CCC in the mid-1930s. CDF leased the site starting in 1978, first staffing the station circa 1981. The Forest Service site record reports that the Barracks was an enlarged and converted warehouse. The converted warehouse was not based on a standard CCC design. Local reports suggest that the warehouse was either substantially rebuilt or replaced in the late 1940s. CDF reconstructed this replacement barracks from "studs and slab" in 1991-2. The old Messhall was originally an office. The new Messhall was erected by CDF in 1992-93. The Gas & Oil House and Generator Shed were constructed by CDF in 1985-86. When CDF first reopened the Guard Station the site was known as the "White Horse Forest Fire Station." Name was changed to Happy Camp Forest Station to avoid confusion with the old (abandoned) CDF White Horse FFS. There were two different CDF station sites: the first White Horse Station was near Hazelton and the second station was near Crank Springs. The former station buildings are gone.

Manzanita Mountain Fire Lookout Station

Lookout Tower	392	256		1976
---------------	-----	-----	--	------

No S-5 for this site.

The original lookout was built by the Civilian Conservation Corps for the Forest Service (Modoc National Forest). It was replaced by the above building.

Nevada County

Nevada City Forest Fire Station (& Administrative Site) (continued)

Radio Repair Shop	nl	1,056 [see Apps Bldg]	nl	51/nl
Residence*	nl	1,250	1,533	45/36

S-5 is dated December 1967. Ranger Unit also has S-5 dated December 1953.

This was originally the Nevada County Ranger Unit Headquarters. Site became the Nevada-Yuba Ranger Unit Headquarters circa 1957. Nevada-Yuba-Placer consolidation occurred circa 1970 with Auburn designated as the Ranger Unit Headquarters. In addition to the fire station, site also contains buildings used for Ranger Unit administrative activities.

The original Barracks was 18 feet by 60 feet. The 1936 vintage building was replaced by existing barracks in 1957. The original Messhall was constructed in 1936 and remodeled (possibly replaced) in 1957. The 2,900 square foot building was dismantled in the 1980s. The existing messhall is a converted residence. The building was constructed in 1936 and remodeled in 1949. Known as the "Foreman's Residence" in the 1960s, the house was converted to a messhall and kitchen circa 1977. The Ranger's Residence is located to the south of the main compound area. The land was parceled off and the house and garage sold circa 1979. The Apparatus Building and Storage Building were remodeled circa 1969. The Storage Building is approximately 2,838 square feet plus an additional 440 square foot lower level tractor shed addition which is attached to the north side of the building. The 1967 S-5 includes the shed in its square footage, the TSS record does not.

No S-5 in Sacramento. Region VI S-5 is dated January 1966. Formerly known as Ryan Air Attack Base.

The Control Tower is a 30 foot tall steel tower topped with a 196 square foot wood frame office. The tower was erected in 1935 by the Civilian Conservation Corps upon Estelle Peak (Cleveland National Forest). CDC inmate crews dismantled the tower and moved the structure to the air base circa 1967 (cab was replaced). The Gas & Oil House is a rebuilt Tool Shed.

S-5 is dated May 1953 with updates to 1969. Region IV S-5 is dated January 1966 and November 1967

Residence #18355 (Ranger's Residence) was constructed by WPA workers in 1939. The two story house is approximately 1,750 square feet. TSS, OSA and S-5 square footage records are wrong. The OSA record also lists this house as the "Ostrander Residence" located at the San Jacinto Forest Fire Station. The construction date of 1958, as given by the OSA is wrong, and the building was never located at San Jacinto. (The Perris compound is bounded on one side by San Jacinto Street and CDF ranger Ostrander did live at the Perris residence.) (The OSA has double listing for same building.) The AR (Associate Ranger) Residence was moved to its present location circa 1965. It was subsequently remodeled and converted into the Fire Prevention Office listed above. January 1966 S-5 reports that the Associate Ranger's Residence Garage (#18361) was moved to the Ramona Forest Fire Station (San Diego County). A new garage (484 square feet) was constructed at the Perris compound and has been converted to office space. Building #18354 is a stone building located near the old Ranger's Residence and is identified on the 1953 S-5 as a "Radio Vault." It is listed on the 1966 S-5 as a "Garage & Radio Room." New Auto Shop was constructed in 1987. Region VI (III) property file reports Service Center constructed in 1983. It also reports that the 1960 Office and the 1960 Office/Apparatus Building were joined together by the 1980 ECC addition.

S-5 is dated March 1967.

The site was initially known as the Panoche Forest Fire Station.

The original Barracks was a metal World War Two Army surplus building.

S-5 is for old site.

The old Hollister Forest Fire Station compound was also the location for the San Benito County Ranger Unit Headquarters. The Headquarters was closed circa 1970 with the San Benito-Monterey consolidation. Existing Hollister Forest Fire Station is several miles from the old site. Buildings on the old site belong to the property owner, which is the City of Hollister.

Staff Quarters*	nl	2,375	nl	35/nl

S-5 is undated, updated 1967, with updates to 1969. The site was formerly known as the Oak Glen Job Corps Center. This was originally a Civilian Conservation Corps camp.

1935 dates on OSA list are believed to be incorrect. Staff Quarters is probably a double listing for BOQ. Although a Civilian Conservation Camp occupied this site the S-5 reports that only 1949 and newer buildings are at site.

* The S-5 form has 1949 as original year of construction; many buildings on compound were enlarged, remodeled, and possibly replaced in 1963-64 and 1966. New assessment values were given and new construction dates entered. It is unclear if these buildings were extensively remodeled or completely replaced.

** Laundry building is now used as Library, laundry facilities are inside Dorm A.

S-5 is dated May 1953 with updates to 1972.

The Generator House is attached to the Emergency Command Center. Gross square footage for these buildings is 3,772. The ECC building was originally an Equipment Repair Shop. The Training Classroom Building totals 3,510 gross square footage. The building was originally an Equipment Storage and Radio Storage Building. The Radio Shop totals 2,040 gross square footage. The building was originally a Warehouse. The Evidence Garage appears to refer to a 600 square foot building that was originally a Garage and Artisan (Drafting) Shop. The original Office was located between two residences. That building is gone and the two houses have been converted into a Fire Prevention Office and a Computer Aided Dispatch Office (vacant). Three Army surplus buildings, serving as warehouse, office, and carpentry facilities were located near the existing Auto Shop. The existing Material Service Center is located where a Ranger's Residence had been. An associated Residence Garage has also been removed. Also gone from the site are two Barracks buildings, one was later converted to a Kitchen and Messhall before finally being removed. The OSA Equipment Room doesn't exist.

Control Tower	100	100	144	ne/ne

Region VI S-5 is undated, no Sacramento S-5.

The Office (Quonset Hut) is the same building listed on the S-5 for the Ramona Forest Fire Station. The FFS building is identified as 1,008 square feet and was erected in 1948. This building is a World War Two surplus building being shipped back to the States from Guam. The Ramona Warehouse Site S-5 lists a 1,560 square foot "Equipment Shelter" with a construction date of 1950. This may be the Warehouse listed above, the building is also reportedly an old Caltrans building which was previously near the Ramona Forest Fire Station.

Storage	168	168	168 [Diesel]	49/49
S-5 is dated May 1953.				
The Office/Apparatus/Work Room Building listed on S-5 is identified as "Ramona Warehouse Site." This building is written in on the Region VI Ramona Fire Control Station Residence S-5 and is given a construction date of 1947. The original Ramona Forest Fire Station site was located nearby and was sold after the fire crews were relocated to the Warehouse Site. The Combination Fire Station Building dates from circa 1978.				
Red Mountain Fire Lookout Station				
Radio Vault	100	nl	nl	
Fire Lookout	nl	nl	392	nl/35
S-5 is dated May 1953.				
The TSS entry does not reflect the presence of the fire lookout building. CDF replaced a circa 1935 building in 1973 with the existing lookout. The lookout is closed and the cab has been sealed shut. The ground floor serves as a radio vault. (There are two buildings at this site.)

Sacramento information from S-5 album is not recorded on an S-5 form.

The Region VI S-5 is undated and contains only the following information: "Neil Rice has station building and site photos. Land acquisition not complete 2/5/63. U.S. Government Surplus Property." The acquisition was completed later that year. The site had an existing U.S. Air Force Radar Station in place. That concrete building was erected in the late 1940s and was remodeled in 1967 to serve as a Combination Barracks building. CDF erected the other facilities circa 1969.

S-5 is dated March 1967 with updates to 1971.

S-5 reports that the Office/Administration Building was "rebuilt in 1949 by CDF and south wing added in 1960." A north wing was added circa 1985 and the building has been remodeled. The S-5 reports that in 1953 CDF added an 80 square foot "communications room" within a 1940 Barn. The Barn was removed circa 1983 except for the communications room which is now designated a "Generator House" by TSS. The original (1939) 1,400 square foot Barracks was removed circa 1985. The 1959 Messhall was converted to the Emergency Command Center circa 1985.

Sandy Point Forest Fire Station (now called Jamison Creek FFS)

Fire Station	ne	nl	1,360 [CB]	nl/35
--------------	----	----	------------	-------

S-5 is dated June 1967. Building belonged to San Mateo County.

First station was destroyed by fire circa 1975. Subsequent station was damaged by earthquake, repaired but then finally condemned. After some 5 to 6 more moves, the fire crews ended up being housed in a closed motel facility. This spring the Sandy Point fire crew found a new home in new facilities. Let's hope their itinerant days are over.

Santa Clara County

Stevens Creek Forest Fire Station (continued)

Gas & Oil House	72	18		1967
Barracks/Messhall	2,315	1,800		1966

No S-5 form located for this site.

Ranger Unit property records show that the Combination Barracks was originally constructed in 1955. The Apparatus building constitutes a portion of an old 1935 garage dismantled and removed from the old Alma Headquarters Station which was closed in the early 1950s because of the Lexington Reservoir construction. The other portion of the old garage went to the Alma Forest Fire Station. (Equipment Garage cut into half.)

Sweetwater Forest Fire Station

Office/Barracks	1,330	1,300 [Fire Station]	800	35/43
Apparatus/Storage	1,318	1,375	720	ne/53
Messhall	nl	nl	952	nl/43

S-5 is dated March 1967.

The site was formerly known as the San Antone Forest Fire Station.

S-5 reports that the Apparatus Building is "open on three sides." The building was replaced circa 1975. The Station is located upon private property. The Messhall is no longer State property being leased by the land owner to a private telephone company. When CDF vacated the Messhall (circa 1976), the Barracks was remodeled and enlarged to incorporate a kitchen and dining area.

Office (old Residence)	1,800	1,800	1,510	ne/35
FFS Office/Apparatus Building	nl	nl		
FFS Storage Building	nl	nl		

S-5 is dated March 1967 with 1969 updates.

The original 1935 Office Building was replaced in 1968 with existing Office Building. Original Ranger's Residence has been converted to office use. Residence Garage was removed to make way for existing Utility Building (Radio Vault). The Gas & Oil House was removed circa 1990. The Forest Fire Station Office/Apparatus Building and Storage Building were erected circa 1989.

Loghry Training Site (Loghry State Forest)

Burn Building	1,600	nl	1,152 [Util]	nl/71
Utility Building	nl	nl	1,040	nl/71

S-5 is dated July 1953 with updates to 1971. The site is called the Loghry State Forest.

S-5 reports that the property was given to the State from a Mrs. Florence Loghry who was currently (1953) living in a residence on the site. A house, garage, water tank, and pump house were recorded on the site with no square footage or date of construction given. S-5 reports two utility buildings of concrete block construction erected on site in 1971.

Mount Bielawski Fire Lookout Station

Lookout Tower	144	50	49	21/22
Residence	440	375	330	68/23
Radio Vault	600	nl	nl	
Well Pump House	80	72 [Storage Shed]	nl	68/nl

S-5 is dated June 1967.

This is the first official State fire lookout. The tower is the oldest CDF building. The S-5 notes that the 1923 Residence is proposed for replacement in fiscal year 1968-69. The old building was removed and a new residence constructed in 1970. The tower was remodeled in 1955.

California Department of Forestry and Fire Protection

Dozer Shed	900	nl	907	nl/60
Carport	2,100	1,120	nl	50/nl
Warehouse	nl	5,000	nl	48/nl

S-5 is dated May 1954 with updates to 1968.

The S-5 was created for the former Shasta-Trinity Ranger Unit Headquarters located on Parkview Avenue. It also has entries for the former District (Region) II Headquarters located on Cypress Street. The two compounds are near each other. In 1985 the Region II administration moved to new buildings located at the Redding Airport while the Ranger Unit administration relocated to the former Region II facilities on Cypress Street. Title to the old Ranger Unit Headquarters has reverted to the land owner which is the City of Redding. No S-5 was located for just the facilities on Cypress Street and the age of the existing office (administration) building is unknown. A plot plan shows the building has been there since 1953 and the OSA entry of 1948 is believed to be correct. The building has been enlarged and remodeled.

Region II Headquarters

Headquarters Office	10,438	12,256		1985
Carport A	2,208	nl		
Carport B	1,920	nl		
Garage C	3,136	nl		
Headquarters Office	3,072	nl		

Buildings post date the S-5 era.

Site is jointly owned with the U.S. Forest Service.

Shasta Bear Mountain Fire Lookout Station

Lookout Tower	392	400	893	81/35
---------------	-----	-----	-----	-------

S-5 is dated May 1954 with updates to 1967.

The original 1935 lookout was replaced in 1980.

Shasta Forest Fire Station

Barracks/Messhall	2,538	nl		
Office/Apparatus	2,176	nl		
Transport	1,920	nl		

This is a new station (1993-94), replacing the French Gulch FFS (also known as the Shasta FSS).

California Department of Forestry and Fire Protection

<u>Station/Building</u>	<u>Building Inventory</u>		<u>S-5 Sq. Ft.</u>	<u>Date</u>

Garbage House	nl	64	nl	83/nl
Gas & Oil House	nl	64	86	61/63

Sacramento S-5 is dated May 1954 with updates to 1970. Region II S-5 is dated January 1968.

Sacramento S-5 reports that the Residence #1 was converted from a "Fowler" type barrack in 1946. The S-5 for the Shasta-Trinity Ranger Unit Headquarters reports that a Sawmill building of metal construction was moved from Whitmore to the Ranger Unit Headquarters located on Parkview Avenue in 1956. A number of other buildings have also been removed from the Whitmore site. The original (1935) Gas & Oil House was replaced in 1963, the Visitor's Office Building was converted to a work shop in 1968. The Barracks is believe to date to 1948 but was remodeled circa 1970.

This site first saw use as a Civilian Conservation Corps Camp. It later saw use as a California Youth Authority Camp. Most of the CCC era and CYA era buildings have been removed. The remaining buildings are used for the fire station crew and as a Ranger Unit firefighter training center. The residences and the old office are vacant.

New Hobby Shop	nl	1,235	nl	88/nl
----------------	----	-------	----	-------

S-5 is dated October 1967 with updates to 1970.

Hobby Shops #1 and #2 are small metal buildings reportedly joined together circa 1977. They have a gross square footage of 800. S-5 reports one metal "Physical Fitness" building of 280 square feet. The S-5 construction date is 1966. There is a possibility that the units are composed of World War Two Army surplus building material thus explaining the OSA dates.

Duzel Rock Fire Lookout Station

Lookout Tower	196	550	196	78/34
---------------	-----	-----	-----	-------

S-5 is dated April 1954.

The original fire lookout was replaced in 1978.

Well Pump House	165	nl	156	nl/55
Air Room	nl	180	nl	53/nl

S-5 is dated December 1967 with updates to 1970. The S-5 reports the following:

The barracks building was constructed in 1938. The 1,340 square foot building was enlarged by an additional 1,016 square feet in 1948. The building was moved from the neighboring Siskiyou County fairgrounds to its present location in 1953 with an additional 342 square feet being added. In 1959 the Combination Barracks was again enlarged by another 610 square feet.

The small office building was originally 792 square feet. It was constructed in 1940. It was moved from the fairgrounds in 1953 and enlarged by an additional 973 square feet.

The Equipment Garage was originally 2,096 square feet being constructed in 1938. The building was enlarged in 1946 by an additional 1,765 square feet. This building was also moved from the fairgrounds to its present location in 1953.

A 1,416 square foot metal building is located at the south end of this compound. It was a retardant storage building at the Monague Air Attack Base before being moved to its present location. The building is believed to have been erected at the Air Attack Base in 1964 and moved to the Ranger Unit Headquarters site circa 1977.

Region II Headquarters has the S-5 for the old site which is dated April 1952 and it has the S-5 for the new (current) site which is dated April 1954.

Generator Building	nl	nl	108	nl/65

S-5 is dated April 1967.

The tower information is wrong, a steel observation tower was erected at the site in 1948 with a cab square footage of 49 feet. The tower is a World War Two military surplus structure. It replaced a 1921 wood frame lookout building which was the first State fire lookout station. Being privately funded in the beginning, the State has always recognized Mount Bielawski, erected in 1922, as the first official State fire lookout station.

Metal Storage Building	nl	nl	nl	

Sacramento S-5 is dated April 1954 with updates to 1971. Region II S-5 is dated September 1962.

The Apparatus Building (8-Bay Equipment Building) was enlarged to 3,712 square feet (9 bays) sometime in the 1950s or 1960s. The OSA Engine Shop and OSA Auto Shop are one building (OSA together totals 3,109 versus 3,100 sq. ft. for TSS Repair Shop). According to the Sacramento S-5 report this building was erected in 1961 not 1952 as the OSA reports. The TSS 3,870 square foot storage building was replaced in 1992-93 with a Fire Station Office/Apparatus Building. That building is approximately 5,360 square feet. The OSA square footage for the Service Center is wrong. A 20 foot by 82 foot metal military surplus building exists on the north end of this site but is not listed in any of the inventories (retired CDF employee states it was erected between 1975 and 1980 and is Korean War surplus). The ECC is located on a separate parcel, on the opposite side of State Highway 99.

S-5 is dated October 1957.

S-5 "p46" = "prior to 1946." S-5 "r51" and "r55" = "rebuilt." The Office/Barracks/Messhall building was originally a Combination Barracks and 2-Bay Garage. The Ranger Unit station improvement file indicates that the adobe building was constructed in 1939. S-5 reports that the two stall garage was converted into additional crew sleeping quarters in 1955. A Millerton Brick Garage had been constructed in 1951 to serve as the Station's Apparatus Building. That building was enlarged in 1966. The building was torn down circa 1989 and a new Office/Apparatus Building was constructed. The Warehouse was originally an Oil House with storage cellar. According to the S-5, the adobe building was rebuilt in 1955 and served as a "Grub House" Building. The material for this building is "Millerton Brick." The Gas & Oil House appears to consist of adobe brick but the building is not identified in the improvement records. The S-5 reports that the Residence and Tank were purchased by the State in 1950. The OSA date of 1940 for the Residence may be correct. The building was remodeled and enlarged at the time of purchase and was enlarged again circa 1968. The Trailer is still on the site.

Hammond Forest Fire Station

Residence	1,394	nl	1,259	nl/p46
Office/Apparatus Building	1,680	nl	1,638	nl/p46

Gas & Oil House	130	nl	125	nl/49

S-5 is dated March 1958.

S-5 "p46" = "prior to 1946." Ranger Unit improvement file lists 1935 for the Residence, 1938 for the Garage, and 1943 for the Combination Barracks (all adobe buildings). The S-5 reports that the Office/Apparatus Building was enlarged in 1951. A metal "Army surplus building" was reported to be on the site serving as a CYA barracks.

Barracks	2,110	2,100	2,040	57/57
Fire Prevention Office	nl	240	nl	"n/a"/*

S-5 is dated November 1958 with updates to 1968.

* The "n/a" on OSA list is because this "building" is an office trailer.

This site was the Ranger Unit Headquarters for Tuolumne County before the Tuolumne-Calaveras consolidation. Besides the fire station, buildings at this site provide administrative space for Ranger Unit activities. An adjoining ranger residence and office site is no longer owned by CDF.

The Office/Warehouse was converted from warehouse only to office use circa 1970. Original 1944 Gas & Oil House was replaced in 1962. The Barracks building was rebuilt in 1962 being enlarged to 2,110 square feet. The Office/Shop is believed to have served as a carpentry shop before being converted to a Radio Shop and Office circa 1965. The building was originally a garage.

S-5 is dated May 1965 with updates to 1972.

Davis Equipment Facility

Warehouse	4,160	nl		
Office	11,860	11,400 [Warehouse/Office]		1983
Maintenance Shop	10,000	13,200 [Machine/Auto Shop]		1981
Gas & Oil House	608	nl		
Residence	1,913	2,400		1930
Garage	1,156	nl		

No S-5 located for this site.

The Residence is reportedly a converted two story gambrel roof type barn. The Barn was erected circa 1922, being converted to a residence between 1935 and 1940. The Warehouse was erected circa 1937. The Gas & Oil House maybe an old converted State Division of Highways field office.

Water Tank	ne	nl	nl	

S-5 is dated June 1961 with updates to 1967.

The Office and Conference buildings were erected circa 1952 as a Residence and Residence Garage. The 1935 Residence maybe the house at the Equipment Facility or a reference to a 1922 house at this site.

Gas & Oil House	150	nl	216	nl/65

S-5 is dated December 1967.

S-5 reports that the "Foreman Residence" (identified as Fire Captain's Residence on OSA list) was remodeled from "old barracks" in 1967. Ranger Unit improvement records indicate that the barracks was constructed in 1937. The S-5 reported that the Ranger's Residence was remodeled in 1965 (it being a 1934-35 building according to the improvement records). The S-5 also reported that the Residence Garage, constructed 1937, was "remodeled from old station garage - 1965." The Ranger's Residence and a CCC era Water Tower (which had a ground floor office) have been removed from the site. A well house at this station is reportedly a converted 1937 oil house.

S-5 is dated December 1967 with updates to 1969. Region II S-6 form is dated April 30, 1962.

S-5 reports that the station property was gift deeded to the State in April of 1940. A 1946 plot plan shows a different set of buildings than what is depicted on a 1955 plot plan. The OSA date for the Office/Apparatus Building is believed to be wrong. The 1948 Messhall and 1948 Barracks were metal World War Two military surplus buildings which were removed in the 1970s. It is unknown what the OSA "Fire Station" entry refers to. This site also served as a California Youth Authority "Spike Camp" in the early 1960s. An additional barracks building was located on the site at that time (the building was gone by December 1967). The Office/Apparatus Building was remodeled and enlarged circa 1981. The Gas Pump Island (constructed 1947) was moved to its present location sometime during the 1960s.
